

# OneCOP

A MovementForward, Inc. Initiative

**WHAT** “One Congregation One Precinct” (OneCOP) is MovementForward’s signature program, facilitating positive, ongoing partnerships between local law enforcement agencies and diverse congregations of every faith tradition.

**WHY** Improving relationships between law enforcement officers and the residents they protect and serve is imperative to addressing tensions. OneCOP builds mutual understanding and provides a structured framework for the public to assist law enforcement efforts.

**HOW** OneCOP kicks off with a launch event in a new city for faith and law enforcement leaders, which is followed by the pairing of officers with a “Congregational Coordinator” from each house of worship. Participating congregations partner with their officer for trust building as well as crime fighting, prevention, and solving activities. OneCOP staff coordinate the pairing and provide ongoing support.

**WHO** Faith-based institutions are places of hope, gathering, and collective social action. With the diversity of houses of worship that can be found in each community, they offer a wealth of knowledge and are a viable resource that can provide law enforcement officers with insights into their respective demographic, denomination, and neighborhood.

## How OneCOP Started

The OneCOP Initiative was conceptualized in July 2016 after a rash of high-profile violent crimes in metro Atlanta created a need for community cooperation with law enforcement. Clergy leaders saw an urgent need to coalesce and act in unison with police to address crime and foster a culture of concern, cooperation, and reciprocal respect. Today, OneCOP is established in cities across the country.

## Getting Involved
